ISO 45001 is being developed using a collaborative, consensus-based approach taking into account the views of large and small organizations, government bodies, trades unions and worker representative organizations. By doing this and making safety part of a company s overall performance goals these safety managers are seeing a positive and tangible impact on the business that goes beyond worker safety and well-being. clients actually just need to express their woes and feel properly listened to, to feel One prime example of this happening is at a manufacturing facility of a leading cosmetics manufacturer. Alongside a greater awareness of safety and increased training and education, it could be argued that the act has also helped change entire attitudes towards health and safety in UK workplaces. is a resource offered to staff so that they can talk to someone objective, confidentially, Equipment is also important but it is not enough to just have the right equipment for the job, it has to be the correct equipment for the user. organizations worldwide Alignment with other key management system standards Less prescriptive requirements which direct organizations All comments submitted will then be taken into account by a panel of experts before the UK formally forwards agreed comments to the international committee. program in place that establishes goals, a comprehensive safety orientation and regular safety training programme
