Comments [1]Workplace StressBest practice communication underpins the alleviation of most work related stressDiana Jervis Read

There is no denying that the introduction of the Health and Safety at Work Act in 1974 resulted in a huge decline in workplace injuries and accidents across the UK.

safety management systems standard is currently under development with publication expected in October 2016.

Safety signs, banners bulletin boards and even video monitors can be found at every turn providing everything from the location of first aid kits and eyewash stations, to safety reminders, warnings and incident record charts.

Meditation and decision making skills can contribute.

an individual s communication issues are likely to be about being people pleasers with a

cannot afford not to be safe, approach compared to a We can t afford to

The international committee developing ISO 45001 includes experts from over 50 countries and 20 liaison bodies, all with knowledge and practical experience of occupational health and safety issues and the challenges faced.

It is not an issue that can be ignored especially when it can literally mean life and death for many.

Through tracking, analysis and feedback, they can identify the factors that impact safety product utilisation and performance spending more time on leadership and less time on enforcement.
