The symptoms are normally a mixture of any of the following: - frequent headaches and/or difficulty in sleeping - diminished immune system - quick to anger - suspicious attitude - chronic fatigue and bad concentration - self criticism - cynicism, negativity, irritability - emotions quickly out of control.

if this meant that every preventable injury and accident was being avoided, unfortunately experience tells

The international committee developing ISO 45001 includes experts from over 50 countries and 20 liaison bodies, all with knowledge and practical experience of occupational health and safety issues and the challenges faced.

cannot afford not to be safe, approach compared to a We can t afford to

Meditation and decision making skills can contribute.

Leadership can also be seen in companies where a culture of safety is fully embraced across the business from top to bottom.

ISO 45001 has been written to a common text and structure defined by ISO for use by all management system standards.

There is no denying that the introduction of the Health and Safety at Work Act in 1974 resulted in a huge decline in workplace injuries and accidents across the UK.
